

THE HARVEST FRESH FARMS

a rejuvenating travel experience

The Harvest Fresh Farms is located at the heart of the serene Cumbum valley which is bound by the mountains and clouds and its beautiful farmlands. It will just take down a 15 minutes drive from the windward side of Kumily, Thekkady, Kerala and there it takes you to the

Lower Camp where the astonishing farm place is set. The Harvest Fresh Farms is sure to provide an authentic organic fruit farm experience. The visitors will be taken by an endearing bullock cart where it takes you to the organic farm that mainly cultivates pomegranates which is one of its main harvests

along with papaya, mango, passion fruit, coconut, tender coconut, grapes and apiary that provides the finest honey.

The farm also hosts the cows, flying ducks, geese, and a flock of hens. On the arrival of visitors at the farm they will be treating by

“

The farm will proudly present to its visitors that the Harvest Fresh farm is being certified organically. At Harvest Farms all the products are grown organically. The farm follows the best practices in the industry. Here all the products are certified organically that is they have been produced, stored, processed, handled and marketed in accordance with the precise technical specifications and are certified as organic by the certification body.

”

the staffs providing them with the organic refreshing welcome drink which is made from handpicked organic fruits of the farms on orchard or sweet tender coconut water that is served within the shells itself. The farm is sure in providing its visitors a rejuvenating experience while walking through their herbal

garden which has more than 150 herbs planted in it. The watch tower is one that should be climbed on which provides its visitors the commanding view of the valley. The farm will be well explained with the guides knowing English who are there to guide the visitors who need to learn the methods and stories

of our farms organic farming. The farm is able to provide its visitors all the type of fun they need during their stay whether it might be long stay, weekend, or for getaways. It can be from cycling through the vegetable farms, making a visit to the neighborhood farms and get a pleasant view of the dashing

farmers market at Cumbum, or experience a magical leisure walk beneath the canopy of vineyards. The Suruli falls is also located here which will provide the visitors an enchanting feel. The farm will provide its visitors a grand meal of local cuisine which is prepared with local procedures.

Here the organic farming includes the composting yards where coir pith, organic waste, garden waste and other organic materials are composted to make the farms own composts. The remains of waste that is obtained from the kitchen and other sources is used in the production of biogas which can be used for the cooking purposes.

The farm will proudly present to its visitors that the Harvest Fresh farm is being certified organically. At Harvest Farms all the products are grown organically. The farm follows the best practices in the industry. Here all the products are certified organically that is they have been produced, stored, processed, handled and marketed in accordance with the precise technical specifications and are certified as organic by the certification body. The rooms are provided with air conditioners, provided with 24 hours hot water, generators for back up, TV, living room, kitchenette, dining room, fridge, board games, library shelves, magazine and housekeeping.
